Hiring Manager
Agoda

I am writing to express my interest in joining Agoda as a technology intern. As a B.Tech student at NIT Patna in Electronics & Communication Engineering, I'm inspired by Agoda's use of cutting-edge tech to simplify global travel.

Over the past two years, I've built full-stack projects like EduCate (a decentralized academic platform) and Kitaabein (a personal library system), using React.js, Node.js, MongoDB, and REST APIs. I also developed Mausam, a real-time weather app leveraging OpenWeatherMap and geolocation APIs—demonstrating my strength in integrating external data and designing smooth user experiences.

Beyond projects, I've solved 600+ problems on LeetCode (3-star rated) and studied core CS subjects like Data Structures, OS, and DBMS—skills that align well with Agoda's scalable, tech-driven systems.

I admire Agoda's fast-paced, innovative environment and would love the opportunity to contribute with my technical skills and problem-solving mindset. Thank you for considering my application.

Yours Sincerely
Chirag Jain
